

CAFA-5 Leaderboard - ESM-1b Reproduction

Deterministic OpenScience design fixture. Values are illustrative UI data and must not be interpreted as a scientific result.

Average Fmax (Protein Function Prediction)

Model	Average Fmax (mean +/- SE)	Rank (of 92)
ESM-2	0.670 +/- 0.004	1
ESM-1b	0.665 +/- 0.004	2
DeepSeqPan 3.0	0.620 +/- 0.006	3
DeepGOPlus	0.598 +/- 0.006	4

Recorded interpretation

The preview demonstrates a bounded, inert PDF artifact inside the research inspector. Production content remains authoritative only after run identity, containment, size, and validation checks succeed.

Fixture provenance

Generated locally for the selected option-3 visual acceptance state. No network provider, credential, external logo, or copied publication content is included.
